PROJECTS

React Ecommerce App

Personal Project | Nov 2023- Jan 2024

This project was done during my React.js training

- The project was designed to perform various operations like sign in , sign out, view, add / remove products from the cart
- The project was designed by using HTML, CSS, JavaScript and React.js

Solar Grass Cutter Machine

Academic Project | Nov 2021- Apr 2022

This was my final year academic project.

- The project aims to fabricate the grass-cutting machine system that runs with the help of a motor by using solar energy
- In this project, my role is to design the model with proper dimensions.

EDUCATIONAL HISTORY

- Bachelor of Engineering (ME)

Adichunchanagiri Institute of Technology,

Chikkamagaluru, Sept 2018- Aug 2022.

- PUC in Science

St.Martha's PU college, June 2016 - Mar 2018.

- SSLC.

St.Martha's high school, June 2015 - Apr 2016

TRAINING AND COURSES

- Java Full Stack Development
- Oracle APEX Developer Professional

PASSION

- Cricket , Coding, PC gaming , Trekking..
